Principal

CIENEGA HIGH SCHOOL
Vail School District

Good Afternoon Bobcat Families,

This week we are excited to have our staff back on site, socially distancing and preparing for our remote lessons to begin one week from today.

Today, I wanted to be sure to share more details of our remote learning plan with each of you. A team of teachers worked closely with your Cienega administration to develop the 100% remote learning plan for our families. We used research, teacher and parent input along with a strong desire to provide the very best remote learning experience for our Cats to drive the creation of the plan.

Here are a few things to keep in mind as you are gearing up for next week.

1. Cats will follow our 1-6 remote learning bell schedule.
2. Cats will not be required to sit in front of a computer for every class each day.
3. The remote learning plan uses synchronous and asynchronous learning.
4. Every class has been placed into one of three different categories.
5. The category determines how often the class meets synchronously each week.
6. On asynchronous days students will complete assignments for class independently.

I am attaching additional documents containing useful information for your family to use to begin to get a clearer picture of what school will look like on August 10th and the days following until we are able to host students for face-to-face learning on our site.

My hope is that these documents will help all of us to navigate this phase of our school year a bit more easily.

I realize you may have questions in regards to remote learning for 100% of our Cats after reviewing this information. If so, please reach out to your student's counselor or myself.

Thank you for your continued partnership and patience.

A handwritten signature in black ink that reads "Kim Middleton". The signature is written in a cursive, flowing style.
